EXPERIENCE

NYU Future Reality Lab

Research Intern | New York | Jun '18 - Dec '18

- Main objective is to incorporate social interactions between multiple users so multiple people can enjoy the VR experience together
- Working on ChalkTalk, an educational VR application dedicated to help teachers and students in class to interact with each other using shapes and graphs

Ernst & Young

Assurance Intern | Hong Kong | Aug '16

- Teamed up with a group of auditors to assess different client's accounts for a fair representation of the client's company
- Collected data and transactions and organized them on excel
- Worked with clients to assess their annual and monthly financial reports
- Established valuable relationships with my seniors to further understand the process of auditing

Projects

CheckMate

iOS Application | May '18

- An iPhone application made to calculate the food bill for everyone so no time is wasted calculating by hand
- Characteristics: swift, firebase, MessageUI, CoreLocation

Clarify (Finalist Winner)

HackNYU | March '18

- A Web App (first place in Education) made dedicated to help students ask questions about class presentations with their professor anonymously
- It includes live interactive chat made from socket.io so the professor can answer them live
- Characteristics: node.js, socket.io, javascript, html5, css3, mongoDB, handlebars.js

LEADERSHIP & SERVICE

NYU Chinese Student Society

Cultural Chair | New York | Sep '16 - May '18

- Promote and spread Chinese culture to other students in NYU by hosting events that are created by the CSS E-board members throughout the year
- Became an event leader for several events to illustrate the purpose of our activity and how it relates to Chinese culture
- Organize an annual benefit concert, DYNAMICSS, and all profits go to the charity organization "One Sky"
- Collaborated with local New York businesses for sponsorships and marketing initiatives
