EXPERIENCE

Ernst & Young

Assurance Intern | Hong Kong | Aug '16 - Aug '16

- Teamed up with a group of auditors to assess different client's accounts for a fair representation of the client's company
- Collected data and transactions and organized them on excel
- Worked with clients to assess their annual and monthly financial reports
- Established valuable relationships with my seniors to further understand the process of auditing

APPLICATIONS

CheckMate

iOS Application | May 2018

- An iPhone application made to calculate the food bill for everyone so no time is wasted calculating by hand
- Characteristics: swift, firebase, MessageUI, CoreLocation

Clarify (Finalist Winner)

HackNYU | March 2018

- A Web App made dedicated to help students ask questions about class presentations with their professor anonymously
- It includes live interactive chat made from socket.io so the professor can answer them live
- Characteristics: node.js, socket.io, javascript, html5, css3, mongoDB, handlebars.js

Personal Agenda

Full Stack Web App | November 2017

- A simple but elegant project created by using express, mongoDB, and handlebars to create the best UI and the most stable and secure web application for the user
- Characteristics: user authentication, server-side javascript, sessions, single-page application

LEADERSHIP & SERVICE

NYU Chinese Student Society

Cultural Chair | New York | Sep '16 - May '18

- Promote and spread Chinese culture to other students in NYU by hosting events that are created by the CSS E-board members throughout the year
- Became an event leader for several events to illustrate the purpose of our activity and how it relates to Chinese culture
- Organize an annual benefit concert, DYNAMICSS, and all profits go to the charity organization "One Sky"
- Collaborated with local New York businesses for sponsorships and marketing initiatives
